Moslem Rebels In Indonesia Massacre 121

JAKARTA (Reuters). — Terrorists of the fanatical Darul Islam sect massacred 121 persons and wounded 65 in an attack on a West Java village while Indonesian Air Force fighters and bombers strafed bandit strongholds in the hills, it was reported here yesterday.

The Air Force did not disclose the number of casualties inflicted in the operation supported by ground troops, but said that 41 rebel barracks were destroyed, and a number of rebels put to flight. About 4,000 persons fled from the village of Tjibure, West Java, when 400 or 500 terrorists, including women and children, staged one of the heaviest attacks in years of the day-by-day rebel war. More than 400 houses were burned down, according to newspaper reports. The Darul Islam leaders demand that Indonesia should become a Moslem state.

In Pringanti, West Java, police yesterday clamped down a curfew on children under 15 to stop them roaming the streets after 3 p.m.

In another West Java village, three terrorists were reported dead after a gun battle with government troops. One soldier and 10 civilians were also killed before the terrorists retreated after burning down 200 houses and destroying rice fields.

Soviet Premier In Budapest for Congress

BUDAPEST (Reuters). — Mr. Nikita Khrushchev, the Soviet Premier, and his wife, Nina Petrovna, arrived by air in Budapest yesterday at the head of a Soviet Communist Party delegation.

The Premier, in his capacity as First Secretary of the Soviet Communist Party, will attend the Seventh Congress of the Hungarian Socialist Workers (Communist) Party which opens in Budapest today.

Mr. Khrushchev was greeted with applause by a crowd of about 500 as he stepped from the TU-104 jet aircraft. He waved his grey homburg hat above his head and smiled broadly in reply.

He was met by a Hungarian Communist Party and Government delegation at the airport and kissed on both cheeks.

Bomb Attacks on Shell Refinery in Italy

MILAN (Reuters). — Two men threw a bomb at a British Shell Oil Company's refinery at Rho, outside Milan, late Saturday night, but it caught in a protective net near two large oil tanks and failed to explode. The men escaped.

Filling stations and other Shell property were placed under guard after two bombs had been found earlier this week on the company's property. Police said one of the bombs, laid on top of a large reservoir, could have demolished an entire district of Milan had it exploded.

Mitterand's Accuser Held For Last Year's Assembly Bombing

PARIS (Reuters). — M. Robert Pesquet, former National Assembly Deputy and central figure in the "Mitterand Affair" was yesterday remanded in custody on a charge connected with a bomb explosion in the National Assembly building on February 5 last year.

M. Pesquet, who was arrested in Paris Saturday while police searched his Paris apartment and his country home, was charged by an examining magistrate with "destruction of an edifice by explosion."

He was later taken to the Santé prison in Paris.

Explosion in Toilet

M. Pesquet was a right-wing Poujadist Deputy at the time of the Assembly bomb explosion. The bomb, believed to have been a medium-powered plastic charge, went off in a ground floor toilet below a room where a Socialist committee was sitting.

It wrecked the toilet, smashed 110 windows, sent 400's flying and severely shook the Socialist committee.

UN Assembly in Final Week

UNITED NATIONS (Reuters). — The General Assembly yesterday headed into its scheduled final week with some of its toughest problems still to be met, including Algeria, Hungary and outer space.

There appeared to be general agreement, however, that the world forum's December 5 deadline would not be met and delegates would be making speeches for some days after that.

The Main Political Committee is expected to begin debate on the Algeria question today, having given it priority to the problems of outer space, the other agenda item still outstanding.

Revival of PCC Seen Pointless

Israel's strong objections to the proposed resuscitation of the Palestine Conciliation Commission is understood to have been explained by Foreign Minister Golda Meir at yesterday's Cabinet session.

Mrs. Meir was reviewing the current discussions at the U.N. General Assembly on the Arab refugee question.

The PCC, comprising the U.S., France and Turkey, was established in 1949. Its terms of reference are held in Jerusalem to be quite inappropriate to present-day realities. Part of its mandate was to lead to the internationalization of Jerusalem.

U.S. Pays 70%

Washington contributes some 70 per cent of UNRWA's \$25m. annual budget. Congress is expected to put up strong objections to continuing this large sum unless the U.N. makes some effort towards a final solution of the refugee problem. The State Department seems to think that the PCC may be able to make a contribution towards this end.

In Jerusalem, opinion is that the PCC will be quite ineffective in this matter, although Israel for her part is willing to assist any project to settle the refugees in their host countries.

Canadian Soldier Slain in Gaza Strip

OTTAWA (Reuters). — Canadian Army headquarters have announced here that a Canadian soldier in the U.N. Emergency Force was shot and killed in an ambush on Saturday. The location and details of the shooting were not known here. An Army spokesman said the soldier would be buried in Gaza on Sunday.

The Israeli authorities know of no incident along the Gaza Strip border in the last few days and assume that the ambush was laid by Arabs inside Egyptian-held territory.

Uruguay Supports Israel on Refugees

MONTEVIDEO (AFP). — Support for Israel's stand on the Arab refugee question was expressed in an Uruguayan Government statement issued yesterday.

The statement said Uruguay would "defend the existence of Israel" because it was "a nation deserving of honor." Uruguay would accordingly go along with Israel when the refugee question is voted on at the U.N.

It was pointed out that Uruguay has no enemy for any Arab state. Its vote was determined by the demands of peace and justice, the statement said.

UAR Confirms Resumption Of Ties with UK

CAIRO (Reuters). — Official quarters here yesterday confirmed that the United Arab Republic has decided to resume relations with Britain and that a communiqué to this effect would be issued in Cairo and London tomorrow.

They were answering questions about a report published in the government-owned Cairo newspaper, "Al Gomhuria," under a front-page headline: "Resumption of relations with Britain."

The newspaper said that an official source told its political correspondent the U.A.R. had "accepted Britain's request to resume diplomatic relations."

The relations were broken off at the time of the Suez conflict in 1956. But a British property commission has been since the signature of the Anglo-Egyptian financial agreement this year.

Revival of PCC Seen Pointless

In London, a Foreign Office spokesman declined all comment on the report. However, diplomatic observers believed the report was substantially correct.

The observers had the impression that British spokesmen were under strict instructions to avoid all comment on the subject for the next day or two.

UAR Accepts Terms Of World Bank Loan

CAIRO (Reuters). — Mr. Joseph Rucinski, Middle East Director of the World Bank, left here by air Saturday night for New York after a week of talks with U.A.R. officials.

Mr. Rucinski has been discussing the legal aspects of an agreement under which the World Bank would grant \$56.5m. for the development of the Suez Canal. He is due to report to Mr. Eugene Black, President of the Bank, who is expected to call a meeting of the Bank's board shortly for a final decision.

Burmese Air Force Strafes Shan Rebels

RANGOON (Reuters). — Five Burmese Air Force fighters attacked and strafed camps of Shan rebels over a wide area near Mangyal, in the South Hsenwi province, the Shan state in combined operations with Burmese Army troops who advanced on the camps four days ago. Government sources said yesterday.

News reaching here said that on the day of the Army's advance, about 30 rebels attacked the power station at Mansam Falls, about 30 kilometres from Lashio, capital of the Shan state. They killed two persons on the premises and made away with installations and stores worth about \$250.

Young Unionist Heads U.K. Labour Executive

BLACKPOOL (AFP). — A trade unionist, George Brinham, was yesterday elected chairman of the Labour Party's executive, replacing Mr. Richard Crossman, M.P., who was elected Deputy Chairman. Mr. Brinham, 39, succeeds Mrs. Barbara Castle, 59. He has been active in union affairs for 30 years and is president of the Woodworkers Union.

At yesterday's session of the Labour Party's "request" conference into last month's election defeat, several speakers bitterly attacked the previous day's speech by the Party leader, Mr. Hugh Gaitskell.

Polish XI Ties Israel, 1-1, With 86th Minute Goal

By GEORGE LEONOF

Israel's national eleven yesterday turned on a sparkling display of soccer, leading the internationally high-ranking Polish team to within four minutes of the final whistle, when the visitors equalized at 1-1 from a free kick.

Before the end of the scoreless first half the Israelis, playing a man short from the 43rd minute, jolted the Poles out of the early confidence inspired by their 7-2 victory in Wroclaw five months ago.

Israel seemed dogged by bad luck from the start. The game had hardly got under way when, in the 10th minute, Buch, between the Israeli posts, collided with Poland's centre-forward Hachorek and had to leave the field with a twisted ankle. He was replaced in goal by Portel.

Towards the end of the first period, left-half Tish, who had earlier been warned by Referee Horn for rough tactics, tackled the opposing inside-left, Majewski, who was not at the moment in possession of the ball. In the ensuing altercation, Tish was sent off the field.

Israel Forces Pace

Israel's 10-man team kept the crowd of 45,000 on its feet throughout the second half. They forced the pace from the whistle, and the defence, though depleted, kept the fast Polish forwards closely covered. It was here that the Israeli attack was launched, the gruelling training programme prescribed by coach Gryla Mandy, who put them on the field in the pink of physical condition. Full understanding and coordination between forward and intermediate line, and lightning tactics, broke up the Polish attack with the inside forwards, Nahum Stelmach, Rafi Levy and Rosenbaum dropping back to fill the gap left by Tish. They kept up the strenuous pace to the end without visible signs of fatigue.

The home team went over to the attack from the outset. In the 13th minute, Rosenbaum, who trapped a sent back to Stelmach, who raced the ball down towards the Polish goal-line, but was prevented from cutting in by the goal-line Stelmach, pivoted, sending the ball back and in to Rafi Levy, who took it in his stride, beating goalkeepers Stefanisyn to the little better than a snail's pace, bumper to bumper, with scooters, and bicycles weaving in and out of the lanes.

700 Police Direct Traffic to Stadium

JERUSALEM Post Reporter

RAMAT GAN. — Mile-long columns of cars, driving two abreast, converged on the Municipal stadium here yesterday afternoon in what was a traffic jam of the most intense. Traffic policemen called one of the densest traffic streams they had ever dealt with. Some seven hundred policemen from the Tel Aviv and adjoining districts were mobilized from their regular beats to direct the thousands of vehicles to the car parks and help funnel an estimated 45,000 spectators into the stadium itself.

French to Be 2nd Language

By ISRAEL NEUMANN

PARIS. — Hebrew is to be granted the status of a recognized subject in French secondary schools and for the baccalaureat examination while French will gain equal recognition with English as a first foreign language in Israel's elementary schools.

This is provided for in the Franco-Israeli cultural accord which is to be signed in the next day or two.

Health Insurance

At a meeting yesterday between the Minister of Justice, Mr. P. Rosen, and the Minister of Labour, Mr. M. Namir, the question of the implementation of a National Health Insurance Law was discussed. Mr. Ben-Gurion did not take part in yesterday's coalition talks.

French Teachers

Under the accord, France undertakes to help prepare teachers of French for Israel schools. An exchange of students and teachers is foreseen and mutual recognition of academic qualifications assured. University chairs and cultural centres will be mutually founded with State help; radio programmes, museum collections and visits by theatrical companies will be exchanged.

Mapai-Mapam Meeting

Progress along similar lines is expected to be made at a meeting today between Mapai and Mapam.

Mr. Ben-Gurion is understood to be determined to present a new Cabinet next week, and although failure to reach agreement with the left-wing parties is now thought unlikely, he might even consider the formation of a Mapai-Progressive coalition which would also be supported by the three Poalei Agudat Yisrael Knesset members.

Prospects Dim For Teacher Accord

Jerusalem Post Reporter

The outlook for a settlement of the protracted secondary school teachers dispute is again bleak following a meeting on Friday between the Minister of Education and the Secondary School Teachers Association, a spokesman of the Association said yesterday.

"Nothing new came out of the meeting," Mr. Aranne went on to say. "The same things discussed before, the Association's chairman, Dr. M. Cohen, claimed."

At the meeting, Association representatives demanded further change in the composition of the Guri Committee which has been appointed by the Cabinet to investigate the teachers' strike and working conditions. Of the twenty members added to the Committee last week, the Association objected strongly to Mr. Y. Amichay, who is president of the court of honor of the Histadrut Teachers Union, had signed the letters expelling from the Union the teachers who had joined the strike.

The Association suggested that the entire Committee resign to make way for the appointment of a more non-partisan body.

The Association was given no clear answer as to whether the Guri Committee would consider the revision of this year's salaries.

Dr. Cohen said that before the two additional members were named to the Committee, the Association had been ready to find a way of reconciling the teachers' cooperation with the school authorities.

The Association's Executive is to meet on Wednesday to discuss the situation.

Boy Dies from Poison Quelled with Father

Jerusalem Post Reporter

A 15-year-old Jerusalem boy who a fortnight ago took rat poison following a quarrel with his father, died in Sha'arei Zedek Hospital on Saturday morning.

The boy, Yehuda Melamed, who lived in Romea in one of the flats built by the Municipality for families living in condemned flats, ran away from home on November 17, the police state.

His father told the police that he had quarrelled with the boy a few days before about the boy's habit of flipping razor blades at people. The boy promised to stop. On November 17, the father asked him if he had stopped and the boy said that he had. But a search of the boy revealed ten new razor blades.

The boy, evidently afraid that he would be severely punished for running away, took rat poison. He sent him to Sha'arei Zedek Hospital where Dr. Arye Wertzberger determined that he had indeed swallowed such a poison. On November 22, he turned up at the flat of a neighbour, complaining that he felt bad. He attributed his feeling to the fact that he had swallowed rat poison. South Africa Reduces Tariffs on Israel Goods

Israel's exports to South Africa are to benefit from substantial tariff reductions as of December 17 following South Africa's ratification of Israel's accession to the General Agreement on Tariffs and Trade (GATT).

The new rates applying to South Africa's imports from Israel will be the same as those applied to imports from other members of GATT. Hitherto import tariffs of 50-100 per cent, and even higher, have been imposed on imports from Israel.

Israel's total exports to South Africa for 1957/58 came to only IL17m, but it is hoped that trade between the countries will expand appreciably following the tariff reduction. It is estimated that the reduction will affect about 40 different items which Israel exports to South Africa, such as: knitted wear, textiles, nylon hosiery, refrigerators and electrical appliances.

TIBERIAS — Representatives of the Jordan Valley Council, which now form the Jordan Valley Drainage Committee, met with the Minister of Agriculture, Mr. K. Luz, have been promised a IL100,000 loan to enable them to carry out urgent drainage projects. The sum is to be made available through the Agricultural Bank.

The dangerous rise in the level of groundwater in their fields has made prompt action imperative, the settlers said. Farm equipment was continuously getting bogged down, especially in the banana plantations.

They also complained that a IL20,000 loan approved by the Minister last year had not yet been implemented.

Jan.-Sept. Exports From Negev Mines Doubled

The Negev development companies have nearly doubled their exports in the first nine months of 1959 as compared to the same period last year.

The Ministry of Development spokesmen reported on Friday that exports of potash, phosphates, fertilizers, copper, bromine and flint clay had totalled more than \$5.5m. in the January-September period, as against \$2.5m. in the first nine months of 1958. In volume, the comparative figures are 138,000 and 91,000 tons.

Tambour Point Firm Expanding

ACRE — One of the first enterprises in Acre's Industrial Area is in the process of enlarging its plant. With the purchase of new machinery, Tambour Point Ltd., will have invested about IL200,000 of which about IL250,000 will have been spent for the acquisition of new machinery and equipment and modernization of the plant, the company has announced.

The intention is to develop new lines in the paint industry, with special regard to synthetic paints, industrial finishes, ship paints and for export. The main part of the plant is now being completed by Spring of next year.

Law Would Close Libel Trials

Attorney General Outlines New Laws Being Prepared for Gov't

Jerusalem Post Knesset Reporter

The public will be excluded from all libel trials under the terms of a draft law on libel which has been prepared by the Ministry of Justice. This was announced yesterday by Attorney General Haim Cohen at a press conference in Jerusalem at which he outlined the legislation prepared by the Ministry for presentation to the Fourth Knesset.

Outlining the general legislation prepared by the Ministry for submission to the Cabinet and then to the Fourth Knesset, Mr. Cohen said that the main object is to replace all laws this country inherited from the British and the British by Israel law. The job would not be completed in this generation, he said, although the speed with which we have worked so far in this field was tremendous when compared with other countries.

On the subject of libel, Mr. Cohen said that at present a person libelled is at a serious disadvantage. His only recourse is to sue the person or publication which has libelled him, and the resultant publicity during the trial may be even more damaging than the original publication. The aim of the new bill is to afford relief to the plaintiff rather than subject him to further punishment.

Another provision of the bill — but one which Mr. Cohen said he doubted would be approved by the Knesset — provides that a newspaper may be closed down for libel, and the editor and reporter be ordered not to work at their jobs for a period of time.

The bill does away with what Mr. Cohen called the "meaningless" distinction between slander (oral vilification) and libel (printed vilification). It also provides that the defendant may not make use of information which he did not have at the time the libel was committed.

In the field of procedural law, two large codes would be presented to the Knesset. One is the Code of Criminal Procedure, which will replace the British code and the other with criminal procedure.

One of the innovations with regard to evidence is the abolition of the oath. "I believe on my oath," said Mr. Cohen, "is a vestige of superstition and is not effective." Mr. Cohen said.

Instead of administering an oath, the judge would warn the witness that he must tell the truth or become liable to punishment. This was similar to Rabbinic practice, he said.

In the code of criminal procedure, the two most important reforms are the change in the role of the charge sheet and the abolition of the jury.

Mr. Cohen complimented the press for the self-restraint it has shown in the past few months. He said that the non-publication of names of suspects when so requested by the police. This showed that a *modus vivendi* with the press could be achieved without passing a law, he said.

Jerusalem Post Reporter

The Herut party in Jerusalem on Sunday met with the Religious Bloc and agreed to virtually all of the latter's conditions for setting up a joint coalition.

Herut agreed that the mayor be any member of the Religious Bloc which that group might wish to propose. Each would serve for two years. However, no decision was reached on who would serve first.)
